November 21, 2018

To whom it may concern,

We are part of Mrs. Fillo's 4th through 6th grade students who participate in social emotional lessons. We have been working on growth mindset and have chosen a project to work on this 2018-2019 school year. Our project is focused on making a difference in the world around us and helping us learn that we, as individuals, can make a positive difference.

We are at the point where we could help others and help change their fixed mindsets to growth mindsets. We have learned that growth mindset is when you believe you can learn and make a difference. Fixed mindset is when you give up easily when you face challenges and don't believe in yourself and others. We are going to help our peers change their mindset too. We have named our project "The Inspiration Campaign". We are working on putting positive words of inspiration on the doors in the student bathrooms. We are starting with our school and are hoping to spread our campaign to the other schools in our community as well.

You are already doing great things for our community and this is a chance to do even more. You have an opportunity to plant a seed of compassion, tolerance, kindness, friendship and inspiration for tomorrow's community leaders. For just \$40, you can sponsor a bathroom door at McDermoth Elementary. Your sponsorship will provide one vinyl door decoration that will brighten the spirits of kids. We have attached a flier with pictures of sample doors.

We are very excited and eager to be a part of making a difference in our community. We would appreciate any and all support you can give.

Respectfully,  
*Mrs. Fillo*
