Project SAIL

Students Accessing Innovative Learning

Site Schedules - 30 Weeks during the school year

All Sites:
West, Gray, Stevens, Miller Junior High, and Aberdeen High School

Activities:

- Homework/Tutoring: 4 days per week
- STEM: 3 days per week
- Academic Enrichment: 4 days per week
- Arts Exploration: 2 days per week
- Healthy Living: 4 days per week

Program Goals –

Goal 1: Increase the academic performance for regularly attending participants.

Objective 1 – Increase the percentage of regularly participating students proficient in reading to meet the school’s Annual Measurable Objective (AMO) target.

1.1 Regularly participating students will meet school and district subgroup AMO yearly targets for low income, limited English and special education students.

1.2 75% of regularly participating students will meet their personal MAP goals in reading.

Objective 2 – Increase the percentage of regularly participating students proficient in math to meet the school’s Annual Measurable Objective AMO target.

2.1 Regularly participating students will meet school and district subgroup AMO yearly targets for low income, limited English and special education students.

2.2 75% of regularly participating students will meet their personal MAP goals in Math.

Objective 3 – Increase the number of high school students who are on track for high school graduation.

3.2 80% of regularly attending students will demonstrate progress towards on-time graduation.

3.3 80% of students who enroll in a credit recovery program will increase credits toward graduation.

3.4 70% of students who receive support for their senior projects will complete their projects.

Goal 2: Provide academic enrichment activities for targeted students.
Objective 1 – All participating students will have opportunities to participate in STEM.

1.1 100% of regularly attending elementary students will participate in one or more STEM activities.

1.2 50% of regularly attending secondary students will participate in one or more STEM activities.

Objective 2 – All participating students will have opportunities to participate in Academic Enrichment and Art exploration activities.

2.1 100% of regularly attending students will participate in one or more Academic Enrichment activities.

2.2 70% of regularly attending students will participate in one or more Art exploration activities.

Objective 3 – 100% of regularly attending students will participate in one or more healthy lifestyle activities.

Goal 3: Provide activities for families to enable them to support their child’s education.

Objective 1 – All families of participating elementary students will have multiple opportunities to participate in family literacy events.

1.1 30 adult family members per site will participate in one or more family literacy events.

Objective 2 – All families of secondary students will have multiple opportunities to participate in family literacy events.

2.1 30 adult family members will participate in one or more secondary family literacy events.
